About the Center for Emergency Medical Care "Protection" is a laboratory of the Institute of Biophysics. In the TV show included footage of the accident at the Chernobyl nuclear power plant, the earthquake in Armenia, space flights.

(Deputy Director of the Center for Protection of A.Nemcev said about the work of the Centre, developed by the Center dressed for the elimination of accidents, for the astronauts and staff of NPP; physician cosmonaut V.Polyakov tells of devices to deal with weightlessness, etc.; MD L. Iseev shows the camera for testing of protective clothing, included footage of the accident at the Chernobyl nuclear power plant, the earthquake in Armenia, space flight)

It is about on the existing and under construction (at the beginning of the 1980's) nuclear power plants, and the directions in the development of nuclear power in the Soviet Union. The film involved the president of the Academy of Sciences of the USSR, Academician A.P. Aleksandrov.

(Part 1: high-tension towers, photos of Academician I.V. Kurchatov, the house-museum Kurchatov, Academician A.P. Aleksandrov tells Kurchatov who is his follower, the construction of the Obninsk nuclear power station (in the shot - the building of the Obninsk nuclear power plant, photo - Obninsk NPP in the 60-ies), a photo - the message of the starting of the Obninsk nuclear power plant in the newspaper Pravda, periodic table, picture - a piece of uranium ore in the hand, the emblem of the atomic nucleus, the central panel of Obninsk nuclear power plant reactor hall, night city, tram, metro , car, train, tank, Zaporizhzhya NPP, photos - Location NPP, Novovoronezh nuclear power plant, machine shop Novovoronezh nuclear power plant, turbine building Beloyarsk nuclear Kurchatov, Beloyarsk nuclear reactor hall, main building of the Leningrad nuclear power station, central control of SELA , appliances, computer room, the building block of the fifth Novovoronezh nuclear power plant, the photo - the rector, the layout of the reactor, the continuation of the story Alexandrovs, scheme of the reactor, turbines, machine room, sluice gates of the Volga-Don canal, terminal in Volgograd, Volgodonsk street, Packaging Plant "Atomash " , a line of steam generators in the shop, boring machine, machines at work, processing of the reactor vessel, steam generator, enclosure, steam comes out of rentgenkamery, workers at the plant "Atomash";

Part 2: Construction of the Rostov and Zaporizhzhya NPP, the body of the Chernobyl nuclear power plant, construction of the reactor building, the construction of nuclear power engineers over the plans, installation of the reactor, rods of zirconium - fuel rods are removed from the container, the layout of the central hall, main building Beloyarsk nuclear power plant, central control , appliances, computers "Skala", punch, remote BSHU, the operator of the display, Mimic reactor, loading and unloading machine operator at the control panel, in the REM, dosimetrist at the helm, working dosimetrists, employees undergo radiation monitoring stations,

laboratories, photo - nuclear power plant across the lake, fountain, building nuclear power plants;

3rd part: telling Aleksandrov, mock nuclear power plant heat (AST), Kiev: Khreschatyk polar landscape, Bilibino NTES, shield reactor control, control, central hall, pipe CHP, the central square of the village Bilibino children in the pool, the leaders Bilibino NTES at the table, the desert, camels, and views of the city of Shevchenko (Aktau), desalination plant, greenhouse, students from Cuba, the classes in the stand, the model, NPP Laviza in Finland, says Academician Alexandrov, main building of the Leningrad nuclear power plant, the rising sun)

Through the prism of the Chernobyl accident in the film raises the problem of finding alternative, safer, cleaner energy sources.

(Part 1: the streets of Moscow, HES, flooded lands; Newsreel - burning oil, working oil, rig, interviews oilman (not named), the miners in the mine, burning coal in the mine, miners in gas masks, an interview with his wife injured miner quarry, burning torch, the Khanty-reindeer processing plant nuclear waste, said an employee of the

plant, nuclear waste under the water, construction site, said the director of the Institute of Energy Research, Academy of Sciences of the USSR A. Makarov, photo Academician I.V. Kurchatov, L.P. Beria; Newsreel - prisoners working on the logging, construction site, the prisoners are systems, enter through the gate;

Part 2: Photos - Obninsk nuclear power plant, control panel, the Chernobyl nuclear power plant, working liquidators, said the head of the Laboratory of the fourth block of Chernobyl Nuclear Power Plant V. Popov, the fourth block, graves, city Pripyat behind barbed wire, the bees in the hive, a former physicist atomist subsequently beekeeper V. Gorokhov gives interviews, avoids the apiary, the Ignalina nuclear power plant, said Brigadier installers Ignalina NPP Maryasov, interview the director of the plant A. Khromchenko and deputy chairman of the State Planning Commission of the Lithuanian SSR Etskyavichyusa, children playing in the street, says the head of "green" Lithuanian J. Tomulis have rekatora work liquidators, said Mayor city Snechkusa R.Kumpis, the third block of the Ignalina nuclear power plant, on which the dispute - to build or not build, say foremen builders, photo - Mikhail Kalinin, presents an award of L.P. Beria ;

The third part: the people on the street, the developer of ship nuclear boilers F.M. Matenkov, a protest demonstration, "one of the Gorky Regional Executive Committee A. Makievsky people with posters, interviews Matenkova, people will work at the reactor, the people at the rally, participants say rally city Gorky with the top point, gear, interviews, academic V.A.Legasov;

4- part of: settlement near Krasnodar, experimental solar station, said the director of the Crimean experimental solar station B. Dubovenko, wind the engine in the family of Alexander and Z. Olinovyh, says A. Olin, an interview with the chairman of one of the farms of the Crimea A.B. Polonsky , windmills, fishing boat, the fishermen pulled the network interviews Estonian fishermen, says the owner a timber base (Estonia), Yu. Ling at his mill, interviews Ling, radio, former nuclear V. Korchevsky records readings, talks about his work; Yalta with top point, hotels, beaches, radio;

5-part : Sweden - nuclear power plants, underground storage, says a Swedish engineer atomist A. Margray, Stockholm - passers-by interviewed local residents, and France - the city streets, said Secretary of State B. Lalonde, Montmartre, nuclear power, said Mr. Perrault , students in the NPP, children with a teacher in the classroom, interviews Mr. Penta (France) plant on the River Gironde, said Madame Foucault, a beach on the Gironde, interviews French winemakers P. Sabourin and J. Mino;

6-Part: construction of nuclear power plant in Chauvigny, underground storage, sculptures on the streets, passers-by, floating boat, a night in Paris; Newsreel - the

people in the field, clean roots, pump water, the robot works, metal works, pours molten metal, the workers at the entrance, people read newspapers, shooting from the Congress of People's Deputies of the USSR - serve deputies Yerokhin, Makarov, interviews Turkmen, children with a woman by the hearth, says academician Kadomtsev, pipe plant, solar plant, nuclear power, wind turbines)

The events at Chernobyl in April-May 1986, the work in the aftermath of the accident

(00:02:10) - town of Pripyat species (Kiev region) before the accident at the Chernobyl NPP: gardens, residential areas, the daily life of peace of the city;
(00:03:14) - Work on the fourth power of the Chernobyl nuclear power plant before the accident;
(00:03:51) - view of the destroyed nuclear reactor from the top;
(00:04:01) - fire trucks go on the road to the Chernobyl nuclear power plant;
(00:04:13) - photos of the dead firefighters;
(00:04:21) - fragment of a letter from the report of the fire service squad Senior Sergeant I. Butrimenko about the situation at the Chernobyl nuclear power plant in the first hours after the accident;
(00:04:51) - caravan of cars leaving the scene of an accident;
(00:05:16) - view the Chernobyl NPP on top;

PO Box 1295, Sterling House, 20 Station Road, Gerrards Cross,

(00:05:33) - A press conference of members of the main government commission to conduct emergency operations;

(00:05:48) - image newspaper pages with information about the explosion;
(00:06:02) - headquarters building of the government commission to carry out emergency work;
(00:06:16) - Staff meeting government commission for the emergency operations;
(00:06:47) - picture of a nuclear reactor Chernobyl after the accident;
(00:06:55) - kind of deserted neighborhoods city Pripyati;
(00:07:27) - evacuation of people from the area of the accident;
(00:08:01) - town for evacuees;
(00:08:15) - people on the streets of the village for evacuees;
(00:08:26) - people handed the keys to new homes;
(00:08:38) - interiors of houses in the village for evacuees;
(00:08:47) - people in the bank receiving money from the fund to assist victims of the Chernobyl accident;
(00:09:00) - conducted medical examination of people in the mobile health points;
(00:09:44) - Staff meeting government commission for the emergency operations;
(00:10:18) - from helicopters to the scene of an accident dumped bags of protective materials;

(00:10:43) - view of the damaged Chernobyl nuclear reactor from the top;
(00:11:00) - IAEA Director General Hans Blix said on the state of the destroyed nuclear reactor to date;
(00:11:49) - Deputy Chairman of the Council of Ministers of the USSR J.S. Silaev speaks
improving the situation on the scene today;
(00:12:52) - destroyed the nuclear reactor;
(00:12:58) - men in white overalls climb the stairs of the fourth power;
(00:13:21) - machinery, welders, dosim work at the Chernobyl nuclear power plant;
(00:14:07) - view of the destroyed nuclear reactor at the side;
(00:14:37) - working on the construction of protective concrete walls on all four sides of the reactor;
(00:15:12) - working in the premises for recreation;
(00:15:30) - workers go on Chernobyl;
(00:16:21) - is working on the creation of special roads for the technology running on the site of the accident;

- (00:16:29) - work items for the decontamination of equipment, working on the site of the accident;
- (00:16:45) - is working on decontamination of the area with helicopters;
- (00:17:02) - view of the destroyed nuclear reactor;
- (00:17:12) - dosimetrists conducting a study on radiation-environment in the territory of Chernobyl NPP;
- (00:17:25) - protective devices on the banks of the River Pripyat;
- (00:17:46) - being made to develop a protective wall in the ground;
- (00:18:01) - is working on the decontamination of buildings from a helicopter on the territory of Chernobyl NPP;
- (00:18:15) - Soldiers conducting decontamination chemical protection of residential buildings around the town of Pripyat;
- (00:18:49) - Robots spend deactivation in the field of high-level radiation;
- (00:19:02) - view the Chernobyl site from the top;
- (00:19:19) - people in the Chernobyl NPP;
- (00:19:35) - A meeting of doctors;
- (00:20:23) - Professor R. Gayle responds to questions on the quality of care for people working on the site of the Chernobyl catastrophe;
-
- (00:21:00) - vicinity of Chernobyl;
- (00:21:12) - dosimetrists check the radiation level of the river water, bread;
- (00:21:22) - view of the Pripyat River;
- (00:21:52) - persons specialists working on the site of the Chernobyl catastrophe;
- (00:22:20) - carried out work in premises adjacent reactors;
- (00:22:59) - a fragment of speech of the CPSU Central Committee General Secretary Mikhail Gorbachev in May 1986 on the need to tighten control over security in the nuclear industry, development of cooperation within the framework of the International Atomic Energy Agency, the threat of nuclear war;
- (00:25:16) - view the Chernobyl nuclear power plant before the accident;
- (00:25:34) - Children swimming in the river;
- (00:26:00) - end of video

TV program dedicated to the fifth anniversary of the explosion at the Chernobyl nuclear power plant, talks about the accident, the impact of environmental disasters.

**RussiaTeleRadio Worldwide
Limited**

We used fragments of the documentary film "Zone semi-vowel" (West-Siberian studio newsreel, 1986.) "Chronicle of perestroika" (Belarusfilm, 1989.) and "Bridge over the two oceans" (CT USSR 1986.)

(Academician E. Legasov tells of events for the decontamination of radiation zones that have been made in Chernobyl after the accident, the actions of dosimetry services; Professor E. Lukyanov said of the doctors in the area of the Chernobyl accident, the positive results of the surveys (1986), Academician L. Iljin says the impact of radioactive releases on human organism; playwright A. Abdullin said about the bad ecological situation in Ufa, about the consequences of a breach of natural balance; Academician Yevgeny Velikhov also raises the question of ecology (fragment teleconference Moscow-San Francisco, 1986). ; Head Office Building G. Lykov said the complete safety of nuclear power plants, Doctor of Physical and Mathematical Sciences V. Chuyanov tells about the development of nuclear energy, Dr. R. Gale / USA / interpretation of the consequences of nuclear accidents, Dr. S. Bernstein / USA / tells the accidents at nuclear power plants in the U.S. Dr. T. Malone / USA / spoke about environmental issues (a piece of video-conference "Moscow - San Francisco, 1986; deactivation at nuclear power plants in the U.S.; Chernobyl - riding fire trucks, work dosimetrists, decontamination stations, helicopters poured water station, a forest fir mutant story resident, returned to the radiation-contaminated zone)

On the tragic events of April 26, 1986 at the Chernobyl nuclear power plant, and on measures to eliminate the consequences of the accident

(0.00.55 - white canvas in a stretcher in the woods, on the background appears red caption "Warning";

0.01.09 - a room in a rustic house, household utensils;

0.02.16 - residents of the new settlement, a man chopping wood, passers-by, girls on the street; 0.03.16 - an ancient custom: a woman opens the door to a new house cat;

0.03.58 - the first guest enters the apartment, he meets a woman, the dialogue between them;

0.05.05 - the hostess with the guests in the new apartment;

0.05.24 - the hostess remembers the catastrophe at the Chernobyl nuclear power plant;

0.06.43 - Nuclear power from the helicopter;

0.07.14 - the ruins of the fourth unit, the smoke rises from the ruins;

0.07.43 - red-hot graphite stack;

0.08.01 - a sign "Caution Radiation";

0.08.18 - Academician V.A. Legasov talks about what he saw after the Chernobyl disaster;

0.08.49 - destroyed reactor;

0.09.41 - Chernobyl and city Pripyat from a helicopter;

0.09.53 - members of the government commission in the cabin of the helicopter;

0.10.24 - a police car on the street of the city;

0.10.44 - deserted city street;

0.11.16 - Traffic policeman on duty;

0.11.28 - works dosimetrist;

0.11.40 - transport on the road;

0.11.53 - Interview with immigrants;

0.13.07 - the helicopter flies, the airfield with a cargo bags;

0.14.02 - destruction;

0.14.43 - an experiment in the laboratory;

- 0.15.06 - workers poured soil;
0.15.29 - working crane;
0.15.35 - Construction of the tunnel to the base of the 4-th unit and installation underneath the refrigeration system;
0.16.12 - says A. Sorokin;
0.17.31 - Evening road, the setting sun;
0.18.54 - the machine with the crew arrives at the gate of the pioneer camp "Skazochnyj", dosimetrist checks the machine;
- 0.20.10 - Chernobyl workers listen to the songs, played guitar;
0.20.25 - doctors and working near the Chernobyl ambulances;
0.20.59 - operating in the hospital, intravenous, doctors at the operating table;
0.21.39 - leaves in the rain;
0.22.17 - a monument to Prince Vladimir in Kiev;
0.22.23 - rain in the park, the yellow leaves;
0.23.29 - a female figure at the tomb;
0.23.52 - mother shakes her baby in the cradle and sings a song in the Ukrainian language;
- 0.24.28 - A nurse caring for young children in strollers;
0.24.53 - Journalist speaks with doctors near Sanatorium "Ukraine";
0.24.57 - tells the deputy chief physician foreign land;
0.26.07 - women with young children in a sanatorium, one of them gives interviews;
0.27.15 - children are running around the alley, the correspondent talked with doctors, talking with mothers;
0.29.46 - Chief of Medical Service city Pripyat Korotkov is a cabinet with a dosimeter in the hands;
- 0.30.38 - Short talks about his work;
0.32.07 - shooting in the hospital, dosimetrist measures the level of radiation in the hospital;
0.33.32 - sparrows, who returned after the accident;
0.33.42 - in the window of the photo of the child;
0.34.58 - an empty playground, a Ferris wheel;
0.34.37 - the road passes a police car, the officer enters the house;
0.35.14 - an abandoned apartment, things ...;
0.36.49 - meeting in the conference hall with scientists and senior officials about the accident;

- 0.37.23 - says the chief engineer N. Steinberg;
- 0.38.13 - Work-fitters talk with dosimetrists;
- 0.38.44 - measurement of radiation levels at nuclear power plants;
- 0.38.51 - broken block;
- 0.38.54 - scientists discuss the situation at the Chernobyl nuclear power plant;
- 0.39.12 - discharge from a pipe plant sensors;
- 0.39.33 - Physics Laboratory nuclear power plant near the TV screen;
- 0.39.40 - helicopter flies station;
- 0.39.55 - forests and fields from a helicopter;
- 0.40.08 - dosimetrists the monitor;
- 0.40.14 - Physics at the TV screen, talk about research conducted by radioactive contamination;

- 0.40.50 - removal of contaminated soil;
- 0.41.46 - meeting a government commission, Chairperson of the Commission - Deputy Chairman of the Council of Ministers of the USSR I. Silayev;
- 0.43.17 - Profiled vice-president of the Academy of Sciences E.P. Velikhov;
- 0.43.37 - interview with members of the committee - E. Velikhov and Silayev;
- 0.45.04 - a column of cement mixers goes to Chernobyl;
- 0.45.19 - roll up gaps in the film,
- 0.45.28 - outfitting shop workers;
- 0.46.19 - worker volunteer Victor Bondarenko in the train compartment, an interview with a journalist, singing with a guitar;

- 0.46.44 - fleeing workers;
- 0.47.17 - sanitary processing machines;
- 0.48.01 - soldiers in respirators in the truck;
- 0.48.09 - Fire wash off the radiation from the houses;
- 0.49.37 - women make pies and sing the Ukrainian song;
- 0.49.40 - working girl-cook;
- 0.50.04 - canteen workers laid out food;
- 0.50.49 - new settlement in Cape Verde, built after the accident;
- 0.51.30 - settlers;
- 0.52.56 - man on the phone-operated
- 0.52.37 - members of the government commission headed by Boris Shcherbina;

- 0.53.16 – V.A. Legasov among the workers, talking to a journalist;
- 0.54.10 - Girls processed vegetables;

- 0.54.25 - carpenter at work, the index service life;
- 0.54.30 - Work barbershop darkroom;
- 0.55.00 - Photos from memory: the kitchen staff, policemen, workers, assemblers, physics;

- 0.55.14 - Army at the post-disaster;
- 0.57.37 - concert for Chernobyl workers, advocates Alla Pugacheva, a person in the auditorium; 0.59.10 - a balloon on the road inside the protected zone;
- 0.59.28 - a jet of water on the pavement;
- 0.59.50 - cars being taken to the dump radioactive trucks;
- 1.00.21 - Construction of the sarcophagus;
- 1.00.33 - sarcophagus - top view;
- 1.01.01 - measuring wall dosimeters;
- 01.01.13 - Construction of the sarcophagus;
- 01.01.42 - machine room station and control panel before running the plant;
- 01.02.42 - man and woman riding on a rural road;
- 01.03.10 - herd of cows;
- 01.03.28 - rural landscapes;
- 01.03.46 - Multi scheme of 4-th unit nuclear power plant;
- 01.07.23 - front page of the report the IAEA;
- 07.01.33 - N. Samoilenko answers the question about who started the accident;
- 08.01.02 - says the chief engineer of Chernobyl Steinberg;
- 08.01.34 - Soldiers of the Chernobyl;
- 09.01.06 - Meeting Room, goes the text about the reaction of Soviet leaders to the accident;

- 09.01.30 - Nuclear power from a helicopter;
- 01.09.45 - Wall sarcophagus;
- 01.09.49 - dosimetrist with the device, says V.A. Legasov (from 01.10.1920 - in the frame);
- 01.11.26 - remote control, the staff at the board;
- 11.01.57 - teleconference Moscow - San Francisco, are the VA Legasov and Weinberg;
- 1.13.39 - serves E.P. Velikhov;
- 1.13.55 - globes in grade school in Chernobyl as a reminder of the warning;
- 1.14.14 - poster on the peaceful policy of the USSR)
